Modesty Frame

Use the Modesty Frame slats for a custom fit appearance when installing smaller size TVs within the range of TVs that fit the Apollo Enclosure.

Modesty Frame slats are placed behind the glass, and insert easily into the channels that are built into the Enclosure cover.

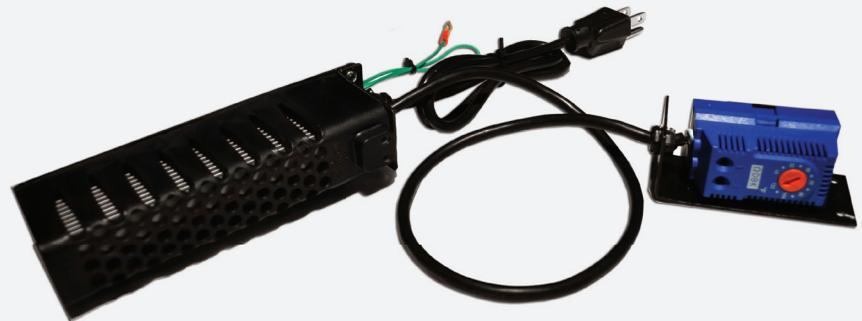

- MOD70 frames 70" TVs in Model AE7570 **\$85 MSRP**
- MOD60 frames 60" TVs in Model AE6560 **\$65 MSRP**
- MOD55 frames 50" TVs in Model AE5550 **\$55 MSRP**
- MOD47 frames 46-47" TVs in Model AE5046. **\$45 MSRP**
- MOD39 frames 39" TVs in Model AE4239 **\$35 MSRP**

Heater Module

The Apollo thermostatically-controlled Heater Module is an option available for extreme weather conditions.

The Heater Module can be preset to:

- Virtually eliminate condensation in high-humidity climates
- or
- Protect your TV in extremely cold climates where temperatures dip below -04° F (-20° C.)

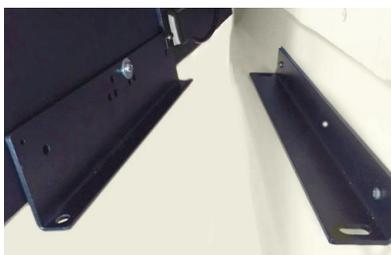

The Heater Module is easy to install and plugs into the 3-outlet power bank inside the Apollo enclosure. Model HM001i for all models. **\$198 MSRP**

Security Kit

SK100-WM is an anti-theft Security Kit that protects all models that are installed on articulating or non-articulating wall-mounts. Padlock not included. **\$55 MSRP**

HDMI Adapter

HDMI-90 is a Male to Female Right Angle HDMI Adapter. (This item may be necessary when installing TVs with rear facing HDMI ports). HDMI-90 for all models. **\$4.95 MSRP**
