REMOTE START RESOURCE GUIDE

Scott Trotter

Scott Trotter
President

WELCOME

Since the early 90's Staub Electronics has been in the business of distributing remote starters to dealers across Canada. For those that were around in the early days, a lot has changed! When we first started out, the product selection was limited, transmitting range was poor, remotes were not built to last, and access to vehicle wiring information was limited. Today, all of these early challenges are long gone, but one thing that hasn't changed is the way distributors expect dealers to buy, pay for and take delivery of their product needs – but that is about to change.

Our purpose at Staub is to help technology integrators succeed. It's a simple idea with powerful potential. It challenges us to continually reinvent the way we do business and reminds us to focus on the customer first. For 2017 we've rebuilt our program from the ground up to make it the most innovative, aggressive and dealer friendly offering in our history. We've eliminated the complexity and risk, streamlined ordering and payment, enhanced delivery and increased our rebates. We've also worked hard with Firstech, manufacturers of Compustar, to bring new and more aggressively priced products to the market. The end result is a product and program offering that addresses the changing market and supports your business.

Starting August 1st dealers committing to our Controller Stocking Program (CSP) will qualify for the following enhanced benefits:

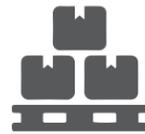

- » 30/60/90 day payment terms on orders of \$1,000+
- » Free express shipping on orders of \$1,000+
- » Daily in-stock guarantee
- » 5% online discount when ordering on www.staub.ca
- » Aggressive rebates

"COMPUSTAR PRO HAS BEEN BENEFICIAL FOR US TO DIFFERENTIATE FROM THE COMPETITION BY OFFERING A SUPERIOR PRODUCT WITH A BETTER WARRANTY PERIOD, ESPECIALLY WITH THE T11. BEING ABLE TO LITERALLY THROW A T11 REMOTE AT THE METAL DOOR IS AN INCREDIBLE DEMO FOR A CUSTOMER! IN A CROWDED MARKET AND WITH COMPUSTAR PRO BEING EXCLUSIVE TO PROFESSIONAL INSTALLATION COMPANIES ONLY, IT HAS REALLY HELPED US KEEP THE PRICE CONTROLLED AND PROFITABLE WHILE PROVIDING US WITH A COMPETITIVE ADVANTAGE. AS A DEALER, IS GREAT TO KNOW THAT WE CAN TAKE CARE OF OUR CUSTOMER IF ANY ISSUES ARISE WITHOUT HAVING TO WORRY IF WE WILL BE OUT OF POCKET OURSELVES!"

JOEL NELSON
SIMPLY STRUCTURED LTD.

- » Panic/car find
- » Siren/horn mute
- » Valet
- » Shock Sensor
- » Turbo timer
- » Passive arming/locking
- » Impact resistant casing
- » 2nd car operation

THERE IS NOTHING CURRENTLY ON THE MARKET TODAY THAT CAN COMPARE TO COMPUSTAR PRO PRODUCTS. FROM THE EXTENDED WARRANTY TO THE DURABILITY AND FUNCTIONALITY OF THE PRODUCTS, COMPUSTAR PRO IS IN A LEAGUE OF ITS OWN.

THE ADDITIONAL WARRANTY ON THE PRO REMOTES IS A GREAT SELLING FEATURE FOR US, GIVING US AN ADVANTAGE OVER THE REMOTES OFFERED BY OTHER MANUFACTURERS. THE FUNCTIONALITY AND PERFORMANCE OF THE PRO REMOTES IS ABSOLUTELY FANTASTIC AND THE RANGE ON THE T11 IS UNMATCHED BY ANY OTHER REMOTE. WE REGULARLY TEST THE PRO REMOTES TO THE EXTREME - PUTTING IT THROUGH THE WASH, THROWING IT AT A BRICK WALL AND EVEN SUBMERGING IT FOR SIX MONTHS! THE T11 IS A MACHINE AND LIVES TO TELL THESE STORIES!

SUPPORT IS ANOTHER GREAT ADVANTAGE WITH THE COMPUSTAR PRO SERIES. WE HAVE NEVER HAD AN ISSUE THAT COULDN'T BE QUICKLY AND EFFECTIVELY RESOLVED. WE ARE PROUD TO BE A COMPUSTAR PRO DEALER AND HAVE ABSOLUTE CONFIDENCE IN THE BRAND AND THE PRODUCTS THEY OFFER.

RAY CHOY
F/X AUDIO LTD.

* Maximum transmitting ranges under optional conditions. Range performance is not guaranteed. Some optional features may require extra installation labour. Consult your local retailer for details.

** DroneMobile feature details will vary and depend on the security system installed as well as which service plan is purchased. 90-day DroneMobile Basic Plan subscription included. Visit www.dronemobile.com for complete details. iPhone not included.

VEHICLE SPECIFIC IDATASTART REMOTE CAR STARTERS

MERCEDES-BENZ AND BMW/MINI REMOTE START

Web-programmable Mercedes-Benz and BMW/Mini Remote Starters from iDatastart now include a 2-Way LED RF Kit with a 1-Way companion transmitter with up to 3,000' range. Also included is an FT-D100 RF Decoder that adds Compustar RF compatibility to the iDataLink AL-CA. Loaded with iDataLink's RS (remote start) firmware, you can add extended range or 2-way to your remote start system. All products offer the following features:

- » No key required for immobilizer bypass
- » Plug & play installation t-harness included, with no wires being cut during installation into the vehicle
- » Remote start from factory key fob. The user simply needs to press the LOCK button three times to remote start from the original remote
- » Can be paired with several compatible aftermarket long-range RF kits and telematics solutions (for smartphone control) sold separately
- » 1 x 1 button 2-Way LED Remote
- » 1 x 1 button 1-Way Remote

MERCEDES-BENZ REMOTE CAR STARTER SKU: ADS-BZ1

Web-programmable remote start solution for over 240 select Mercedes-Benz models from 2006-2013*. Keyless entry, security system, comfort and remote start features are included.

MERCEDES-BENZ REMOTE CAR STARTER SKU: ADS-BZ2

Web-programmable remote start solution for over 300 select Mercedes-Benz, Dodge and Freightliner models from 2003-2015*. Keyless entry, security system, comfort and remote start features are included.

MERCEDES-BENZ REMOTE CAR STARTER SKU: ADS-BZ3

Web-programmable remote start solution for over 215 select Mercedes-Benz models from 2008-2014*. Keyless entry, security system, comfort and remote start features are included.

MERCEDES-BENZ REMOTE CAR STARTER SKU: ADS-BZ4

Web-programmable remote start solution for 30 select Mercedes-Benz models from 2012-2014*. Standard, keyless entry, security system and remote start features are included.

BMW/MINI REMOTE CAR STARTER SKU: ADS-BM1

Web-programmable remote start solution for over 830 BMW and Mini models from 2005-2015*. Keyless entry, security system and remote start features are included.

- » 1 x 4 button 2-way LCD remote
- » 1 x 4 button 1-way remote
- » Superheterodyne
- » Up to 1,500' range
- » Theft deterrent LED
- » Remote start
- » Keyless entry
- » Trunk release
- » Siren/panic
- » Passive arming
- » Alarm alerts
- » Interactive LCD
- » Valet mode
- » Shock sensor
- » Clock
- » Diesel engine ready

COMPUSTAR LT SERIES FEATURES ALL-IN-ONE BUNDLES THAT INCLUDE EVERYTHING YOU NEED TO INSTALL A REMOTE START, SECURITY OR COMBO SYSTEM ONTO YOUR VEHICLE. EACH LT SERIES BUNDLE INCLUDES A REMOTE KIT AND CONTROLLER MODULE AND IS UPGRADEABLE TO ANY ONE OF OUR RF SOLUTIONS.

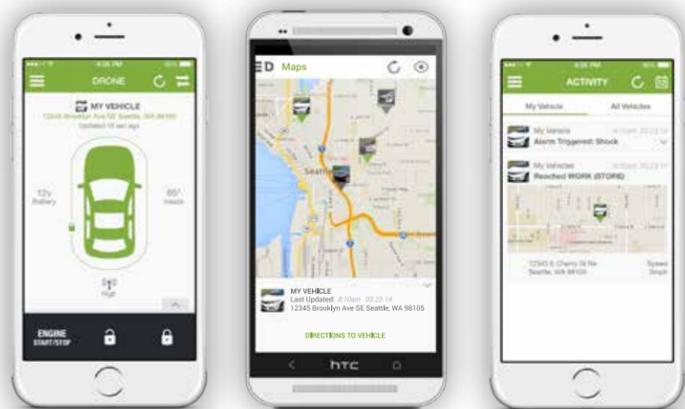

GPS TRACK, SECURE, AND START YOUR VEHICLE FROM THE CONVENIENCE OF YOUR SMARTPHONE

WANT A SMARTER CAR?

DRONE WORKS WITH ALL VEHICLES TO LINK YOUR CAR'S REMOTE START OR SECURITY SYSTEM TO YOUR SMARTPHONE VIA THE INTERNET. WITH ONE SIMPLE CONNECTION, DRONE PLUGS DIRECTLY INTO MOST REMOTE START AND SECURITY SYSTEMS, GIVING YOU SECURE AND UNLIMITED RANGE ACCESS TO YOUR VEHICLE FROM THE CONVENIENCE OF YOUR SMARTPHONE. ONCE INSTALLED, YOU CAN SEND LOCK AND REMOTE START COMMANDS TO YOUR VEHICLE FROM ANYWHERE AND WITH INSTANT START CONFIRMATION USING THE DRONEMOBILE SMARTPHONE APP.

DRONE IS NOW SMARTER, STRONGER AND FASTER! THE DR-3400 OFFERS ALL OF THE SAME FEATURES AND BENEFITS OF PREVIOUS MODELS, BUT IN A COMPACT CASING THAT IS 60% SMALLER. THIS MEANS THAT INSTALLATION IS EVEN EASIER THAN BEFORE AND YOU CAN NOW MOUNT DRONE AT OPTIMAL POSITIONS FOR A BETTER AND MORE RELIABLE SIGNAL. THE NEW DRONE DR-3400 IS POWERED BY THE ROGERS NETWORK IN CANADA, PROMISING YOU SOLID COVERAGE WHEREVER YOU GO. A NEW, HIGH POSITION GPS PROCESSOR DECREASES RESPONSE TIME BY 1-2 SECONDS, IMPROVING YOUR CUSTOMERS' CAR CONTROL EXPERIENCE.

NEW DRONEMOBILE APP!

FEATURING A NEW AND IMPROVED USER INTERFACE, THE DRONEMOBILE APP IS MORE USER FRIENDLY THAN EVER! AN INTERACTIVE CONTROL INTERFACE ALLOWS YOU TO ACCURATELY VIEW ALL THAT IS HAPPENING WITH YOUR VEHICLE WITH IMPROVED NAVIGATION BETWEEN SCREENS. THIS NEW VERSION ALLOWS FOR MULTIPLE VEHICLE TRACKING, IMPROVED FUNCTIONALITY FOR FLEET VEHICLES, DETAILED ACTIVITY SCREENS WITH FILTERABLE ACTIVITY ITEMS, PLUS MUCH MORE!

FEATURES*

ARM / DISARM
Arm or disarm your car anywhere that has cellular coverage. Two-way confirmation displayed on app.

REMOTE START / SHUTDOWN
Cool your car in the summer, warm it in the winter. Compatible with Compustar and most remote start brands. Two-way confirmation and start error notifications displayed on app.

TRUNK RELEASE
Tap the trunk release button on the app for hands-free trunk opening. Two-way confirmation displayed on app.

TWO AUXILIARY OUTPUTS
Control external devices such as sunroofs or power windows through two available auxiliary outputs. External interface modules may be required.

GPS TRACKING
Track the exact location of your vehicle on a map, receive important alerts and view any available vehicle status information.

GEOFENCE
Set a "digital fence" around a point of interest. Receive alerts if/when a vehicle arrives or departs a specific location.

ALERTS / PUSH NOTIFICATIONS
If you own a smartphone with push alerts, you can receive vital alarm and GPS alerts via push alert on the app.

WEB CONTROL
Access DroneMobile through any web browser on a smartphone or computer. You do not need to own a smartphone to use Drone.

MULTIPLE VEHICLE CONTROL
Toggle between multiple vehicles within the preference settings on your app and receive important alerts and notifications for every vehicle on your account.

DRONEMOBILE NOW WORKS WITH AMAZON ALEXA!

DRONEMOBILE NOW WORKS WITH AMAZON ALEXA!

DRONEMOBILE IS THE FIRST AFTERMARKET CONNECTED CAR SOLUTION THAT INTEGRATES WITH ALEXA-POWERED PRODUCTS BY AMAZON. DRONEMOBILE USERS THAT HAVE AN ACTIVE SUBSCRIPTION WILL BE ABLE TO DOWNLOAD THE DRONEMOBILE SKILL FOR FREE. UPON ACTIVATION, USERS WILL BE REQUIRED TO CREATE A SECRET PIN TO PREVENT UNAUTHORIZED VEHICLE CONTROL.

DRONEMOBILE SKILLS FOR ALEXA

Due to safety concerns, this first version of the DroneMobile Skill for Alexa does NOT include remote start features. The DroneMobile team is working to analyze user behavior to understand how to safely implement remote start features into the Alexa app.

KEYLESS ENTRY

- » Alexa, tell DroneMobile to lock <Vehicle Name>.
- » Alexa, ask DroneMobile to unlock <Vehicle Name>.

TRUNK RELEASE

- » Alexa, tell DroneMobile to open the trunk on <Vehicle Name>.
- » Vehicle Status
- » Alexa, ask DroneMobile to check status of <Vehicle Name>.

GPS CAR FINDER

- » Alexa, ask DroneMobile where <Vehicle Name> is.
- » Alexa, tell DroneMobile to find <Vehicle Name>.

HELP

- » Alexa, ask DroneMobile for help.

The DroneMobile Skill for Alexa is available for download in the Alexa app and on Amazon.com.

For more information, visit www.drone-mobile.com.

* DroneMobile feature details will vary and depend on the security system installed as well as which service plan is purchased. Visit www.drone-mobile.com for complete details.

DRONEMOBILE

MYFIRSTTECH REWARDS

DRONE ALL-IN-ONE REMOTE START/SECURITY BUNDLE
SKU: RSD-3AS

Adds remote start, keyless entry, GPS tracking, and maximum security to your vehicle. Control and track your vehicle using your smartphone and receive an instant alert if your vehicle is ever broken into. Includes the following:

- » DR-3400 Telematics and GPS Module
- » FT-7000AS-CONT Remote Start Controller
- » FTX700R 1000' Range Remote and Antenna
- » FT-DAS Impact/Tilt/Motion Sensor
- » Theft-Deterrent LED
- » FT-SIREN Alarm Siren
- » FT-TEMP SENSOR In-Vehicle Thermistor

DRONE ALL-IN-ONE REMOTE START BUNDLE
SKU: RSD-3S

Adds remote start, keyless entry, and GPS tracking to your vehicle. Control and track your vehicle using your smartphone and make sure your vehicle is always perfectly heated/cooled. Includes the following:

- » DR-3400 Telematics and GPS Module
- » FT-7200S-CONT Remote Start Controller
- » FTX700R 1000' Range Remote and Antenna
- » FT-TEMP SENSOR In-Vehicle Thermistor

DRONE ALL-IN-ONE SECURITY BUNDLE
SKU: RSD-3A

Adds maximum security, keyless entry, and GPS tracking to your vehicle. Control and track your vehicle using your smartphone and make sure your vehicle is always secure. Includes the following:

- » DR-3400 Telematics and GPS Module
- » FTX700R 1000' Range Remote and Antenna
- » FT-DAS Impact/Tilt/Motion Sensor
- » Theft-Deterrent LED
- » FT-SIREN Alarm Siren

DRONE STANDALONE SYSTEM HARDWIRE HARNESS
SKU: DR-HRN-3KHW

Used for configuring DR-3400 without an existing Remote Start or Security system.

- » For GPS standalone installations
- » GPS-tracking only
- » Receive speeding/geofence alerts
- » Requires Premium subscription
- » No vehicle control

GET PAID FOR EVERY DRONEMOBILE SYSTEM YOU ACTIVATE

MYFIRSTTECH REWARDS IS AN EXCLUSIVE OPPORTUNITY FOR FIRSTTECH RETAILERS TO RECEIVE MONTHLY PAYOUTS FOR EVERY DRONEMOBILE SYSTEM THEY ACTIVATE, FOR AS LONG AS THEY STAY ACTIVE!

THE PREMISE IS SIMPLE: RETAILERS, ALONG WITH THEIR EMPLOYEES, WILL NOW HAVE THE OPPORTUNITY TO EARN CASH PAID OUT ON FIRSTTECH-BRANDED VISA® PREPAID CARDS.

HOW IT WORKS

1. Purchase a minimum of 10 DroneMobile modules (DR-3400)
2. Visit dronemobile.com/myfirsttechrewards to watch a short video about DroneMobile.
3. Complete a brief online quiz on that same page. You will have to answer every question correctly.
4. Once you have passed the quiz, you'll be provided with a link to register for myFirstTech Rewards.
5. Please allow up to 5 business days from the day you completed Step 1 for approval. You will receive an e-mail with your username and password.
6. Connect your DroneMobile Dealer account by visiting the new DroneMobile dealer interface at: <https://accounts.dronemobile.com/DealerLogin>

REWARDS STRUCTURE

ONCE YOUR BUSINESS'S MYFIRSTTECH REWARDS AND DRONEMOBILE DEALER ACCOUNTS ARE ALL PROPERLY SET UP, YOU WILL RECEIVE A MONTHLY RECURRING REWARD FOR EVERY DRONEMOBILE SYSTEM THAT YOUR BUSINESS ACTIVATES, FOR AS LONG AS THE SYSTEM STAYS ACTIVE. PAYOUTS WILL VARY DEPENDING ON THE PLAN-TYPE SELECTED BY THE USER. THEY ARE AS FOLLOWS:

PLAN	BASIC	PREMIUM	BUSINESS	BUSINESS PLUS
Vehicle Control	✓	✓	✓	✓
Security Alerts	✓	✓	✓	✓
Detailed Vehicle Status	✓	✓	✓	✓
GPS Car Finder		✓	✓	✓
Speed & Curfew Tracking		✓	✓	✓
Geofencing		✓	✓	✓
Month-to-Month Plan Fee	\$5.99/month	\$11.99/month	\$24.99/month	\$29.99/month
Annual Plan Fee	\$64.99/year (10% savings)	\$129.48/year (10% savings)	\$269.99/year (10% savings)	\$319.99/year (10% savings)
myFirstTech Rewards	\$1.50/month	\$2.00/month	\$4.00/month	\$4.00/month

IDATALINK MULTI & BLADE SERIES

ONE MODULE DOES IT ALL!

Designed for maximum versatility, iDataLink Multi Series is the industry benchmark in web-programmable integration. Only three web-programmable SKUs can cover virtually all of your install needs!

UNIVERSAL TRANSPONDER/DOORLOCK INTERFACE

SKU: ADS-AL-CA

The industry standard 'all-in-one' CAN interface module with doorlock interface kit and transponder override, the ADS-AL-CA combines all the features and functions of the ADS-TB and ADS-DL and is also CANbus enabled.

Web-programmable for 41 car makes and over 11,000 vehicle models, from 1988 to 2018; including exclusive KLON firmware applications. Features single-wire connection to popular aftermarket remote start, vehicle security and convenience products equipped with an 'iDataLink' or 'DBI' serial port. Simply plug the ADS-AL CA module to your PC using the Weblink Updater Cable and flash your module with any TB, DL+ or CA firmware available in our application library. Standard, keyless entry, security, comfort, convenience and remote start features are included.

ADS-USB required for web-programming and sold separately. Data immobilizer bypass available where applicable. Additional accessories may be required and sold separately.

UNIVERSAL TRANSPONDER BYPASS

SKU: ADS-TB

The ADS-TB is designed as a universal data immobilizer bypass module that is web-programmable for 30 car makes and over 4,900 vehicle models from 1988 to 2018; including exclusive KLON firmware applications. Features web-updateable firmware and single-wire connection to popular aftermarket remote start products equipped with an 'iDataLink' or 'DBI' serial port. Simply plug the ADS-TB module to your PC using the Weblink Update Cable and flash your module with any TB firmware available in our application library. Standard and remote start features are included.

ADS-USB required for web-programming and sold separately.

USB SERIAL COMPUTER CABLE AND SOFTWARE

SKU: ADS-USB

The Weblink Update is a dedicated USB interface cable to connect iDataLink modules to your PC for online firmware programming with Weblink. Weblink Updater plug-in install required via a free download.

* Current and complete vehicle coverage can be found at www.idatalink.com.

BLADE UNIVERSAL TRANSPONDER BYPASS

SKU: BLADE-TB

The BLADE-TB is a universal data immobilizer bypass integration cartridge that is web-programmable for 30 car makes and over 5,800 vehicle models from 1988 to 2018; including exclusive KLON firmware applications. It inserts directly in Blade-compatible remote start products for seamless integration. Connect your remote starter to your PC using the Weblink Updater Cable and flash your module with any firmware available in our TB application library. Standard, security and remote start features are included.

BLADE UNIVERSAL TRANSPONDER/DOORLOCK INTERFACE

SKU: BLADE-AL

BLADE-AL is designed for web-programmable data immobilizer bypass and doorlock integration for 41 car makes and over 11,000 vehicle models from 1988 to 2018; including exclusive KLON firmware applications. Designed for hassle-free all-in-one immobilizer bypass, doorlock interface and CANbus integration, this universal 'all-in-one' integration cartridge simply inserts into Blade-compatible remote starter, vehicle security and convenience products for seamless integration. Connect your remote starter to your PC using the Weblink Update Cable and flash your module with any firmware available in our entire library. Standard, keyless entry, security, comfort, remote start and telematics features are included.

ADS-USB required for web-programming and sold separately. Data immobilizer bypass available where applicable. Additional accessories may be required and sold separately.

BEYOND THE MODULE

Designed for compact and seamless integration with Blade-compatible remote starter and security devices, Blade modules cover virtually all your immobilizer bypass and doorlock integration needs with only two SKUs.

WEBLINK MOBILE

In order to flash your iDataLink product with your mobile device, the Weblink Mobile app has been created to work in conjunction with the ADS-WLM-AP1 adapter cable for Apple devices and the ADS-WLM-AN1 for Android devices. The Weblink Mobile app is free of charge and immediately available for download from the Apple Store and Google Play. The Weblink Mobile app lets Authorized Installers program iDataLink, iDataStart, CompuStar and other devices, via their mobile device and works in conjunction with the Weblink Mobile adapter cables (ADS-WLM-AP1 and ADS-WLM-AN1). An online Weblink account is required from www.idatalink.com/weblink.

Compatible Apple Products

The Weblink Mobile app requires iOS 8.3 or later. This app is compatible with the following Apple products:

- » iPod Touch (4th generation)
- » iPhone (3GS, 4, 4S, 5, 5C, 5S, 6, 6 Plus)
- » iPad (iPad2, iPad3, iPad mini, iPad 4, iPad mini Retina, iPad Air)

Compatible Android Products

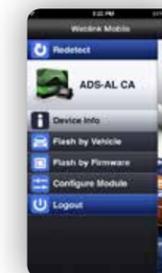

The Weblink Mobile app requires Android 4.1 or later. This app is compatible with the following Android products:

- » Android smartphones and tablets running Jelly Bean (4.1, 4.2, 4.3), KitKat (4.4) and Lollipop (5.0, 5.1) operating systems

Supported ADS Devices

All Firstech DC, CompuStar and iDataStart t-harness remote starter kits produced by ADS are supported by Weblink Mobile. ADS-2CS RF decoders are supported as of 2015 production only. iDataLink bypass modules are supported as of February 2014 production only. Details included in Weblink Mobile box.

* For a complete listing of supported ADS devices, please visit www.weblinkmobile.ca.

WEBLINK MOBILE CABLE ACCESSORY

SKU: ADS-WLM-AP1 + ADS-WLM-AN1

The Weblink Mobile Cable Accessory enables you to flash your iDataLink interface modules and other ADS-sourced remote start kits directly from an iOS (ADS-WLM-AP1) or Android (ADS-WLM-AN1) compatible device. No more time wasted flashing from your computer, you can now flash anywhere you have your mobile device. The Weblink Mobile cable extends up to 10 feet. Plus, you save time and paper by viewing install guides directly on your compatible Apple or Android device.

Note: The ADS-WLM-AP1 and ADS-WLM-AN1 will not update Firstech controller firmware on the CM5 or 6x series modules. This feature is under development and will be possible in a future update.

MOMENTO DASH CAMERA SYSTEMS

VISUALIZE THE MOMENT

Momento is a premium camera solution for vehicles that gives drivers an extra set of eyes to monitor and record activity on the road.

Accidents and near-misses can happen so fast, that you won't have time to hit RECORD. Thankfully, there's Momento. Momento records everything that happens at the front and rear of your vehicle, all in crystal clear high-definition.

KEEP AN EXTRA EYE ON YOUR RIDE

Momento dash cam systems all include front and rear cameras to provide up to 270° of surveillance coverage for your vehicle.

WHILE YOU'RE DRIVING

When you're on the road, Momento uses looping technology to constantly record activity and overwrite older footage. If your Momento dash cam detects impact, it will store footage from the incident in a separate folder so that it will not be overwritten.

WHILE YOU'RE PARKED

Momento dash camera systems are "hard-wired" to your vehicle's battery so that recording can begin even while your engine is off! If Momento detects impact or motion around your vehicle, all activity at the front and rear of your vehicle will be recorded using AutoSave.

VEHICLE COMPATIBILITY

Momento dash camera systems are compatible with 100% of vehicles.

FRONT & REAR HD RECORDING

UP TO 270° OF SURVEILLANCE COVERAGE IN CRYSTAL CLEAR HIGH-DEFINITION (UP TO 1080P).

CONTINUOUS MONITORING

WHETHER YOU ARE ON THE ROAD OR PARKED, MOMENTO IS ALWAYS WATCHING.

MOTION & IMPACT SENSORS

MOMENTO STARTS RECORDING BEFORE AND AFTER SOMETHING HAPPENS AROUND YOUR VEHICLE.

MOMENTO M4 HD DUAL DASH CAM

SKU: MD-4200

HD (720p) dash camera system including front camera w/ LCD, rear camera, GPS antenna, and 16GB micro-SD memory card. Record activity at the front and rear of your vehicle in High-Definition with the Momento M4 Dual Dash Cam system, which provides up to 270° of surveillance coverage for your vehicle.

- » 3.5" Touch Screen: Provides interactive interface and high clarity that you can use to review footage, adjust settings, and start AutoSave recordings
- » Format-Free Technology: Provides automatic memory format and maximizes stability. Automatically overwrites files when storage capacity is exceeded
- » Autosave: While driving footage uses "looping" to overwrite older footage, recordings triggered by impact or motion are stored separately so that they are not overwritten
- » PIP Multi-Screen: Multi-screen feature allows you to view front/rear cameras simultaneously
- » Audio/Voice Guide: Provides voice guidance, as well as alert sounds/messages
- » Multiple Recording Modes: Continuous, incident-continuous, incident-parking, parking, and manual recording modes
- » Battery Save Mode: Measures the voltage of your battery real-time and halts Momento to prevent excess battery-drain
- » Speed Sensor: Provides information about vehicle's location and speed. (GPS antenna required)
- » PC Viewer: PC Viewer for Windows is used to watch recorded videos. Use VLC for Mac computers
- » Compatibility: Compatible with all vehicles

MOMENTO M5 FULL HD DUAL DASH CAM

SKU: MD-5200

Full HD (1080p) dash camera system including front camera w/ LCD, rear camera, GPS antenna, and 32GB micro-SD memory card. The Momento M5 places two HD, wide-angle cameras at the front and rear of your vehicle, providing 270° of surveillance coverage.

- » Full HD Resolution: (1920x1080) high-definition front camera
- » 3.5" Touch Screen: Provides interactive interface and high clarity that you can use to review footage, adjust settings, and start AutoSave recordings
- » Sony Exmor R Sensor: Provides clean and clear video quality in low-light scenarios
- » Format-Free Technology: Provides automatic memory format and maximizes stability. Automatically overwrites files when storage capacity is exceeded
- » Autosave: While driving footage uses "looping" to overwrite older footage, recordings triggered by impact or motion are stored separately so that they are not overwritten
- » PIP Multi-Screen: Multi-screen feature allows you to view front/rear cameras simultaneously
- » Audio/Voice Guide: Provides voice guidance, as well as alert sounds/messages
- » Multiple Recording Modes: Continuous, incident-continuous, incident-parking, parking, and manual recording modes
- » Battery Save Mode: Measures the voltage of your battery real-time and halts Momento to prevent excess battery-drain
- » Speed Sensor: Provides information about vehicle's location and speed. (GPS antenna required)
- » Front-Vehicle Move Alert: Alerts the driver when the front vehicle starts to move from a complete stop

MOMENTO DASH CAM DISPLAY

SKU: MD-MMT0100

- » 15.8"W x 11"L x 11"H Display
- » Built-in Video Player
- » Video Remote Control
- » 2GB Formatted SD Card
- » Momento Video File w/ Subtitles
- » Power Supply
- » 2x Slatwall Utility Hooks

REMOTE START ACCESSORIES

1A RELAY - 4/PACK
SKU: ADS-RLY-1A

Ideal for various low current applications, the ADS-RLY A1 multipurpose 1 Amp relay kit can also be combined with our ADS-RNG products for low cost RF transponder bypass applications. Product sold as 4-pack.

DIG. ADJUSTABLE SENSOR
SKU: FT-DAS

The FT-DAS gives you 3 different sensors in one. Along with a dual stage shock sensor, the FT-DAS includes tilt and G-force sensors, which shut down the vehicle when it senses movement and notifies you on your 2-way remote. A perfect solution for installing onto manual transmission vehicles.

VEHICLE PAGING SENSOR
SKU: RPS TOUCH

With the FT-RPS-TOUCH mounted on your windshield, you can arm your Compustar alarm simply by pressing the red button on the RPS-TOUCH. A 4-digit code is all you need to disarm your alarm and unlock your doors. The FT-RPS-TOUCH also doubles as a 2-way remote pager.

SHOCK SENSOR
SKU: 2WFM-AS/S

The 2WFM-AS/S is designed to protect your vehicle from unwanted impact. It will provide either a warn away or full alarm trigger depending on severity of impact. The sensitivity level is adjustable. The Shock Sensor is included with all Compustar alarm and alarm/starter combo units.

DOOR LOCK INVERTER
SKU: DM-600

This harness is used to switch the lock and unlock outputs on the CM3 and CM4 series control modules. The harness provides a 600 mA positive 12V+ on the lock and unlock wires. The DM600 plugs directly into the current lock harness on the CM3 and CM4 series.

RF DECODER
SKU: FT-D100

The FT-D100 Decoder is a translator that allows Firsttech radio frequency kits (RF) to communicate with the iDataLink ADS-AL-CA Universal Transponder/Doorlock Interface using Remote Start firmware (RS) from ADS.

ALARM ACCESSORY KIT
SKU: FT-ALARMIT-KIT

The FT-ALARMIT KIT makes it easier than ever to add an advanced security and alarm system to your existing Compustar remote starter. Includes an FT-DAS Shock Sensor, an FT-SIREN Alarm Siren and an FT-LED BLUE Theft Deterrent LED.

TRANSPONDER BYPASS
SKU: COMPUTRANS

The Computrans V2 is used when installing remote start products in vehicles equipped with a Radio Frequency based immobilizer system. This type of system uses a small chip imbedded in the ignition key, called a transponder, to transmit a very low powered RF signal. If your vehicle has this type of security system, you will need this type of bypass module.

BACKUP BATTERY
SKU: FT-BATT-BACKUP

The FT-BATT-BACKUP provides an extra three hours of battery power to all alarm functions even if your car loses power. The system connects to your CM5/CM6/CM7 Series alarm or alarm starter. Provides backup battery power to all alarm functions for the duration of the battery's life. Ideal for protecting your car even when the primary battery power is cut off.

OPTIONAL PROGRAMMER
SKU: OPTION PRO

The Option Programmer is used to program Dealer Only options on the CompuStar and CompuStar Pro Series. It comes with all the equipment needed to update your CM4 Series CompuStar Pro control modules. This can also be used to program other systems from Firsttech.

STAUB PROMOTIONAL ITEMS

COMPUSTAR PRO PRODUCT BROCHURE
SKU: COMPUSTAR PRO BROCHU

Full colour, tri-fold brochure featuring the remotes and companion remotes of the 2017 Compustar Pro line.

COMPUSTAR PRODUCT BROCHURE
SKU: COMPUSTAR BROCHURES

Full colour, tri-fold brochure featuring the remotes and companion remotes of the 2017 Compustar line.

COMPUSTAR REMOTE START DISPLAY
SKU: P-RSDISPLAY-2016

Standing Compustar Remote Start display which measures 36" wide, 24" deep and 73" high, featuring six remotes of your choice and product display cards with pricing (download template from www.staub.ca/remotestart).

DRONE DISPLAY
SKU: P-DMDISPLAY-2015

Standing Drone display which measures 20" wide, 14" deep and 60" high, featuring brochure holders and Drone information.
