

## 310-Series Analog Cameras

See clearly, day or night, with our Luma Surveillance 310-Series analog cameras. 2MP resolution means your security footage will be crystal clear, and the 310-Series offers the brightest Starlight images in our lineup for improved nighttime picture quality.

**IR****STARLIGHT****24 HOURS OF CLARITY**

Our 310-Series cameras automatically adapt to changes in light. Starlight technology maximizes ambient light to provide a full-color image at night that rivals daytime quality.

**SEE CLEARLY**

True WDR, or Wide Dynamic Range, autocorrects images taken in inconsistent lighting and balances them into a clear picture.

**WEATHERPROOF**

We build our camera housing tough, so they can withstand the harshest elements. You can rest assured that a strong storm or heavy rains won't impact their best-in-class performance.

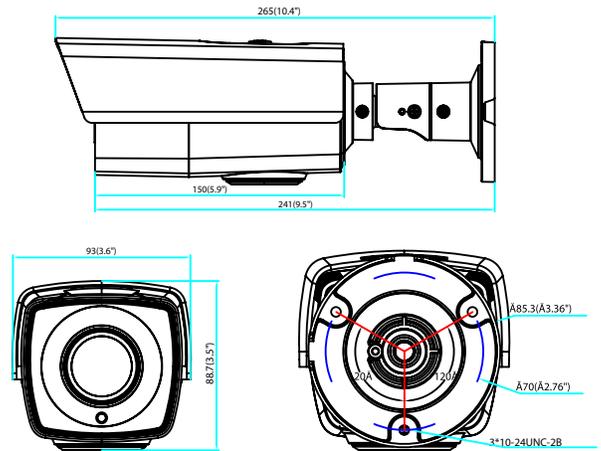

# Technical Specs & Features

FEATURES	LUMA
