

510-Series Analog Cameras

Luma 510-Series cameras offer 3MP of resolution, which means your security footage is even better quality than 1080p. See in the dark up to 130 feet with night vision infrared (IR) signal.

BETTER THAN HD

You'll feel extra secure knowing you're recording crystal-clear security footage of your property. Capture every nuance with our 510-Series cameras.

SEE CLEARLY

True WDR, or Wide Dynamic Range, autocorrects images taken in inconsistent lighting and balances them into a clear picture.

ILLUMINATE THE NIGHT

With up to 130 feet of IR, the 510-series eliminates overexposure in dim settings and illuminates the subject, making sure you don't miss a thing.
