

The *Acoustic Landscape™ AS41 Hi-Fi Landscape Audio System* brings stunning surround sound to the backyard with four 4" camouflage enclosed two-way satellite speakers and a bass-boosting 8" in-ground subwoofer. The AS41 System projects perfectly even sound coverage directly into the listening area with equal volume, turning the whole outdoor space into a sweet spot without causing a disturbance to neighbors... All while remaining completely hidden from sight in landscape foliage. Expand the system with up to four AS4SAT speakers for coverage up to 2,500 square feet\*.

① ② Plugs into existing A/V Receivers

 Withstands all weather conditions

 Camouflage for minimal visibility

# AS41
