

AS51SYS

OVERVIEW

The AS51SYS Landscape Audio System brings stunning surround sound to the backyard with eight 5^{1/4}" camouflage enclosed two-way satellite speakers and a bass-boosting, dual use, 10" subwoofer.

PRODUCT ID

COMPLETE SOLUTION

The AS51SYS makes installing an outdoor audio system dead simple. The high-impedance satellites can extend up to eight loudspeakers on each the left and right channels. The included digital amplifier comes tuned to the system for fantastic sound right out of the box. Its dedicated high-power subwoofer channel ensures the bass requirements of any client can be satisfied.

FLEXIBLE LOW-END

The AS51SUB can be installed in the ground or on hard surfaces. Built for flexibility, it's ready for any outdoor area. When buried, the ports extend just a few inches above the surface, matching natural terrain. When on the patio, it features rubber feet to grip the surface and prevent movement. The wires all tuck nicely into the base for a clean, professional installation.

OUTDOOR HI-FI

The poly/rubber woofer and titanium tweeter featured with the included AS5SAT would be just as at home in an audiophile loudspeaker or studio monitor. They produce a warm, clear sound with a wide dispersion pattern for smooth, even coverage.

AS51SYS

AS5SAT

PART	AS5000SAT
Woofer	5 ^{1/4} " Poly/Rubber Woofer
Tweeter	1" Titanium
Frequency Response	55Hz-20kHz
Power Peak	50W
Impedance	16 ohm
Dimensions	8 x 6 ^{3/8} x 7 ^{7/8} " (204 x 163 x 200mm)

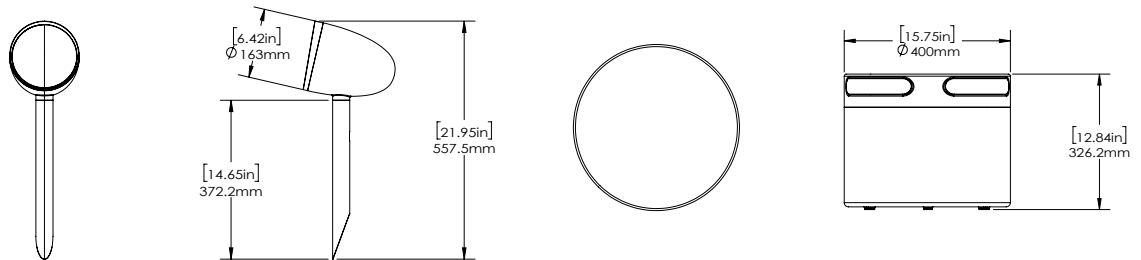

AS51SUB

PART	AS5100SUB
Woofer	10" Poly/Rubber Woofer
Frequency Response	35Hz-120Hz
Power Peak	200W
Impedance	12 ohm
Dimensions	15 ^{3/4} x 15 ^{3/4} x 11 ^{7/8} " (400 x 400 x 300mm)

DSP3-150

PART	AMPD03X1500
Channels	3
Output	150 x 150 x 300
Digital Input	1 x Optical Stereo
Analog Input	2 x RCA Mono
Dimensions	17 x 3 ^{1/2} x 14" (433 x 88 x 357mm)
