- Patent Pending

DC Powered USB Chargers

FSR offers a full line of charging solutions for your iPhone®, iPad® or any smart device in a variety of form factors to meet your installation requirements. The chargers communicate with your device and provide it the correct charging wattage, up to a full 12 watts. All models come complete with a universal power supply.

POE to USB Chargers

Using FSR's PoE to USB chargers, you can power and charge USB devices such as an iPad® from a POE-Ethernet drop without the need for AC line power. The IT-CHRG-P2U cube style cube model can be mounted in a 2-gang wall box behind an FSR IPD wall mount or other wall mounted USB devices. Both units emulate the Apple™ charging circuit to avoid annoying pop-ups. The IT-WPCHRG-P2U Decora style models fit directly into a standard gang box and are available with white, black or ivory cover plates.

- Powers/charges USB devices without an AC line
- Universal USB charger
- Power "ON" indicator
- IEEE 802.3at (802.3at Type 1) Class 0 compliant

IT-WPCHRG-P2U

- POE to USB Universal, Charger Wallplate
- Available in Black or White or Ivory

IT-CHRG-P2U

- POE to USB Universal, Charger Cube
