

Engineered Innovation

Extraordinary Sound

The All New Architectural Speakers from Russound

The innovative IC-Series of Architectural Speakers from Russound incorporates the latest advances in material technologies and audio engineering to provide the best sounding speaker lineup in Russound's 50-year history. Each of these new speakers has been designed, manufactured and tuned with great care so that your listening experience is truly exceptional. Our range of speaker solutions provide excellent choices in any application - from background music listening to premium performance in your favorite listening areas at home.

While designed for premium sound quality, Russound also included features that will make these easier to install, saving time and money for all involved. For that, Russound included its unique Easygrip™ tweeter posts and bridges to make all of the IC-Series speakers easy to hold at the top of a ladder, and most importantly, for its premium models, the IC-620, IC-620T, IC-820, IC-820T, IC-630 and IC-830, as well as the in-wall IW-620 and IW-630, Russound incorporated its proprietary, patented SwiftLock® technology for effortless installation at the push of a button.

SWIFTLICK
BY SWARM

The IC-Series of speakers provides excellent options for all of the speakers in the home, from complete multi-room audio solutions to dedicated home theaters and everything in between. From the kitchen to the living room to the bedroom, there is a perfect speaker for every room.

IC-605

 Areas Two-way In-ceiling

- Use instead of the IC-620 for larger rooms, rooms with higher ceilings, or for deeper bass response
- Acoustically matched with the IC-620 - mix and match in a home as needed
- SwiftLock® tool-less quick and easy installation

IC-620T

Designed for Primary Listening Areas
 Single Point Stereo In-ceiling

- Designed for small rooms, hallways, or anywhere that stereo speaker installation is difficult
- Dual Tweeter and Dual Voice-Coil Woofer
- Enhanced frequency response for superb sound
- SwiftLock® tool-less quick and easy installation

IC-820

Designed for Primary Listening Areas
 Two-way In-ceiling

- Use instead of the IC-620 for larger rooms, rooms with higher ceilings, or for deeper bass response
- Acoustically matched with the IC-620, IC-620T, IC-820T & IW-620 - mix and match in a home as needed
- SwiftLock® tool-less quick and easy installation

IC-820T

Designed for Primary Listening Areas
 Single Point Stereo In-ceiling

- Designed for anywhere that stereo speaker installation is difficult
- Dual Tweeter and Dual Voice-Coil Woofer
- Enhanced frequency response for superb sound
- SwiftLock® tool-less quick and easy installation

IC-630

Ideal For Critical Listening Areas & Home Theaters
 Two-way In-ceiling

- Enhanced frequency response for superb sound
- Excellent for both music and TV/movie/home theater use
- SwiftLock® tool-less quick and easy installation

IC-830

Ideal For Critical Listening Areas & Home Theaters
 Two-way In-ceiling

- Use instead of the IC-630 for larger rooms, rooms with higher ceilings, or for deeper bass response
- Acoustically matched with the IC-630 & IW-630 - mix and match in a home as needed
- SwiftLock® tool-less quick and easy installation

IW-620

Designed for Primary Listening Areas
 Two-way In-wall

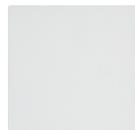

- Integrated one-piece baffle /woofer basket design for enhanced rigidity and more efficient bass
- Acoustically matched with the IC-620, IC-620T, IC-820, and IC-820T - mix and match in a home as needed
- SwiftLock® tool-less quick and easy installation

IW-630

Ideal For Critical Listening Areas & Home Theaters
 Two-way In-wall

- Integrated one-piece baffle /woofer basket design for enhanced rigidity and more efficient bass
- Acoustically matched with the IC-630 and IC-830 - mix and match in a home as needed
- SwiftLock® tool-less quick and easy installation

Optional Square Grilles available for in-ceiling speakers (not included)

Optional Rough-in Brackets for in-ceiling speakers (not included)

- Quick and easy
- Tool-less Installation
- Available on all 20 & 30 Series Loudspeakers
- Install at the push of a button
- US Patent 10,024,493
