

■ Mounting procedure

STEP 1 Determine the mounting position of the soundbar using the Wall Mounting Template.

STEP 2 Fix the brackets to the wall.

STEP 3 Attach the Safety Wires.

STEP 4 Attach the soundbar to the brackets.

STEP 5 Fix the soundbar using the supplied screws (4 pcs).

■ Note

- Mount the soundbar securely so that it withstands the self weight of the soundbar and the bracket over a long term and also resists earthquakes. Insecure mounting may cause injury due to dropping of the soundbar.
- Fasten the screws securely for safety. Insecure mounting may cause injury due to dropping of the soundbar.
- Ensure enough interval from the surroundings for mounting the soundbar. If not, the accumulated heat in the soundbar may cause fire.
- Do not hang down from the soundbar. That may cause injury due to dropping of the soundbar.
- After mounting the soundbar, perform the safety check periodically. The screws may be loosened or a mounting strength may be deteriorated by secular change or vibration, etc. from the long-term use.
- Please note that Onkyo shall not be responsible for a fall accident, etc. caused by a wrong mounting position or insecure mounting ,or damage and flaws on the wall.

■ Mounting

STEP 1 Determine the mounting position of the soundbar using the Wall Mounting Template.

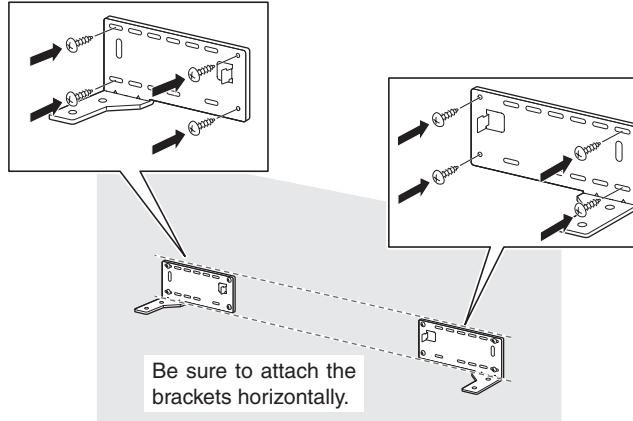

- Stretch the Wall Mounting Template tightly.
- Attach the Wall Mounting Template to the wall and mark the screw positions (8 positions) for fixing the brackets.

STEP 2 Fix the brackets to the wall.

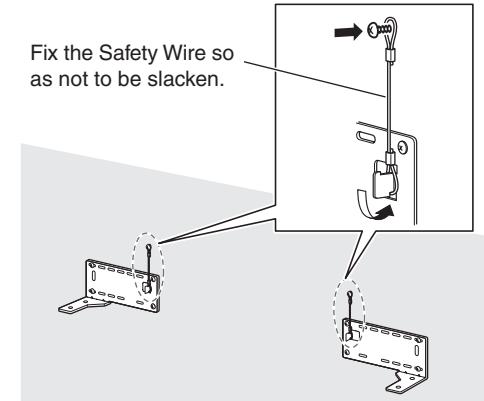

- Use the diameter 5/32" (4 mm) screws. (Commercially available ones)

[Note] Be sure to attach the right and left brackets horizontally.

STEP 3 Attach the Safety Wires.

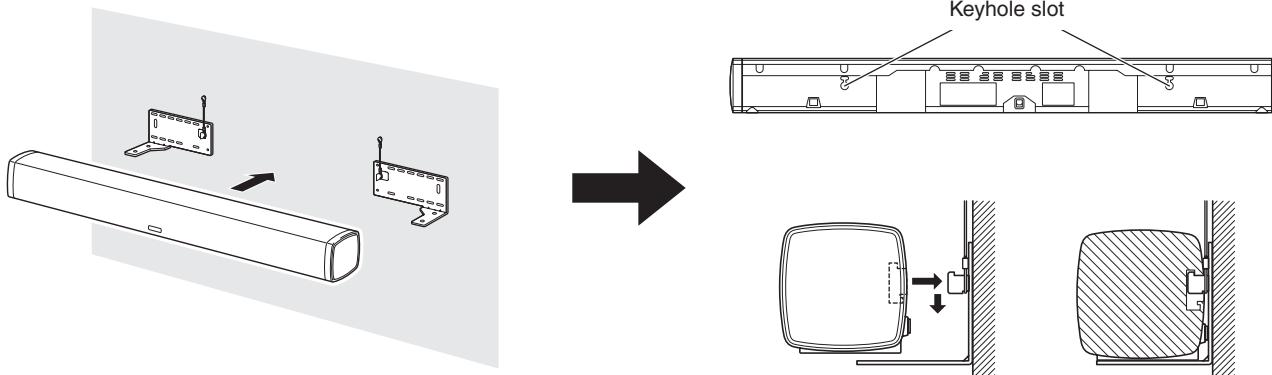

- Hook one end side of the Safety Wire to the bracket and fix another end side to the wall using screws. (Commercially available ones)

STEP 4 Attach the soundbar to the brackets.

[Note] Do not use the stand supplied with the soundbar.

- Hook the hook of the bracket to the keyhole slot of the soundbar.
- Attach the soundbar securely so as not to incline or shake.

STEP 5 Fix the soundbar using the supplied screws (4 pcs).

[Note] If the lifting is generated in fixing the screws, do not fasten them forcibly. To solve it, detach the brackets and then attach them again.
