RACKS

Superior Strength

Legion Racks bring pure strength to custom integration. Tough racks that hold up, look good, and maximize profitability. Legion Racks combine the most important install features with unparalleled durability you can trust for every install.

Impressive Customization

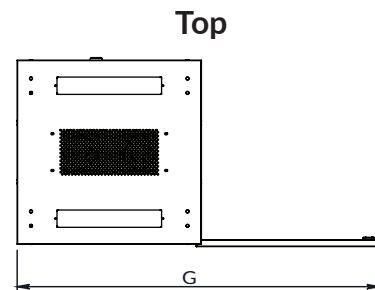

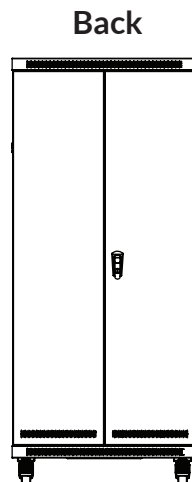

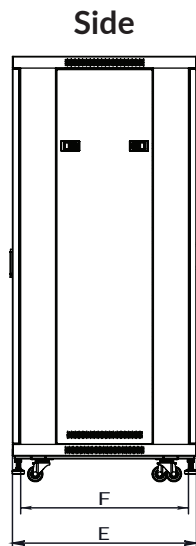

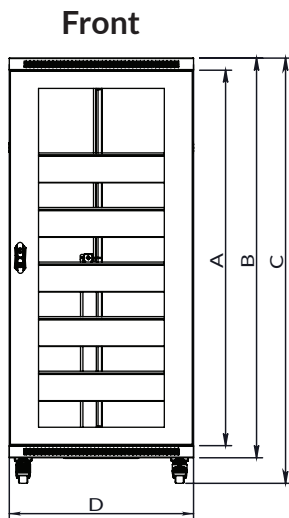

Equipped with adjustable rack rails, lockable and removable side panels, a reversible glass front door, and a lockable split back door, Legion Racks provide the customization needed for a smooth install. Plus, these racks feature wire-management panels on the top that easily screw on and off, providing plenty of space for wires.

Pre-Assembled and Easy to Install

Legion Racks come pre-assembled with vented shelves and blanks, and are available for local pickup, so you can act fast when building custom networks. Plus, with built-in cooling, Legion Racks keep equipment running smooth. Optional cooling accessories available at [SnapAV.com](https://www.snapav.com).

Maximum Margins

Make your clients' budget go further without sacrificing the integrity of your work. Legion Racks are priced to protect your margins while maintaining structural integrity.
