

Portable Viewing

Luma's 2MP 300 Series IP Wi-Fi cube camera is ideal for indoor installs where you need to see clearly, including nanny cams or other applications where flexibility is a must.

All Luma IP cameras detect motion while raising less false alarms, integrate with popular control system keypads and touchpads, and feature a dedicated, sleek mobile app for iOS® and Android™.

HIGH QUALITY PICTURE

At up to 2MP, our IP cube camera offers high-resolution images in full 1080p, preventing picture stretching or other image distortions.

SOLID MOTION DETECTION

With improved basic motion settings, highlight any flexible or oddly-shaped grid area for custom motion detection, vastly reducing false alarms.

INTUITIVE LUMA APP

Did you leave the garage door open? Want to check in on the dog? Watch live video or playback the camera stream anytime.
