

INSTALLATION BEST PRACTICES

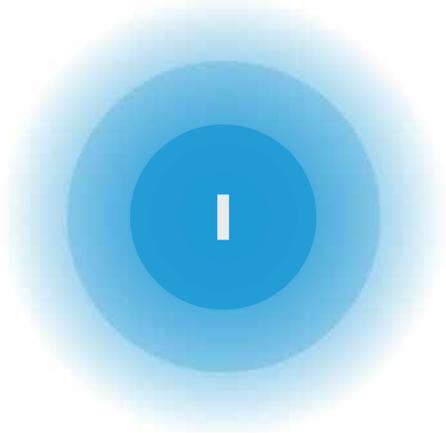

PROPAGATION PATTERN

SIDE VIEW

TOP VIEW

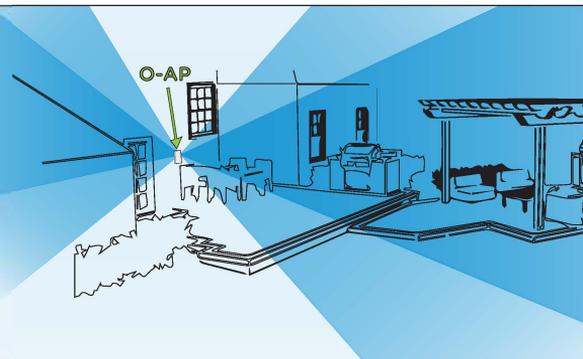

Signal diminishes with distance from Access Point

RECOMMENDED MOUNTING SETUP

1. Vertical Wall Mount

Mount no higher than 3ft from the ground, facing the desired coverage area

2. Tilt Mount

Use the tilt mount for higher installation placement

CHANNEL SELECTION NOTICE

Out of the box, your access point channel selection is set to AUTO. We recommend manually selecting one of the following channels:

- 2.4 GHz - Channels 2-11
- 5 GHz - Channels 149, 153, 157, or 161
