

SB3

SB1

SB.5

Sound bars have become a critical element in family room and bedroom theater systems. Simple to include and easy to install, they provide a huge improvement over the internal loudspeakers in a flat panel television. Reinforced with an in-wall, in-ceiling or freestanding subwoofer they can create an impressive, full-frequency sound field.

Step Up to The Bar

The Soundbar is a passive speaker system that contains all three channels, Left, Center and Right. The SB1 and SB.5 LCR utilize the same components but divides them into three separate enclosures to be placed on the left, in the center either above or below the video display and on the right. The three speakers can also be placed in a linear row above or below the video display. The drivers are mounted in extruded aluminum enclosures and can be mounted on the wall, on the included stand or attached to a third-party mount connected directly to the video display. Regardless of your choice of mounting and position, the Soundbar and LCR's will deliver pristine music and movie soundtracks and compliment your home theater experience.

SPECIFICATIONS

Model: SB3

Part: SBC3000

- Extruded Aluminum Cabinets
- Woofers: 3 1/2" Glass Fiber
- Tweeter: 1" DPSD™
- # of channels: 3
- Minimum Load: 8 0hm
- Frequency Response: 65Hz - 20kHz
- Sensitivity: 90 dB
- Dimensions: 42 x 6 x 3" (1068 x 154 x 73mm)
- Table-top Vibration Isolation Stand
- Wall-mount Kit

Model: SB1

Part: SBC1000

- Extruded Aluminum Cabinet
- Woofers: 3 1/2" Glass Fiber
- Tweeter: 1" Silk DPSD™
- # of channels: 1
- Minimum Load: 8 0hm
- Frequency Response: 65Hz
- Sensitivity: 90 dB
- Dimensions: 16 x 6 x 3" (408 x 154 x 73mm)
- Table-top Vibration Isolation Stand
- Wall-mount Kit

Model: SB.5

Part: SBC0500

- Extruded Aluminum Cabinet
- Woofers: 3 1/2" Glass Fiber
- Tweeter: 1" Silk DPSD™
- # of channels: 1
- Minimum Load: 8 0hm
- Frequency Response: 67Hz
- Sensitivity: 90 dB
- Dimensions: 12 x 6 x 3" (301 x 149 x 74mm)
- Table-top Vibration Isolation Stand
- Wall-mount Kit
