

SureCall Signal Catcher™

Wide-Band Directional Window-Mount Antenna

BOOSTER FEATURES AND BENEFITS

- Wide-band directional antenna designed to transmit cellular signals from inside a window to a SureCall cell phone signal booster, eliminating the need for a roof-top mounted antenna.
- The Signal Catcher is designed for applications when outside or roof-top access to mount an external antenna is not possible.
- Unique circular mesh design provides ultimate isolation from internal coverage antennas.
- Compatible with Force5, FlexPro, Fusion4Home (with adapter), Fusion5s, Fusion5X and Fusion7.
