

Overview

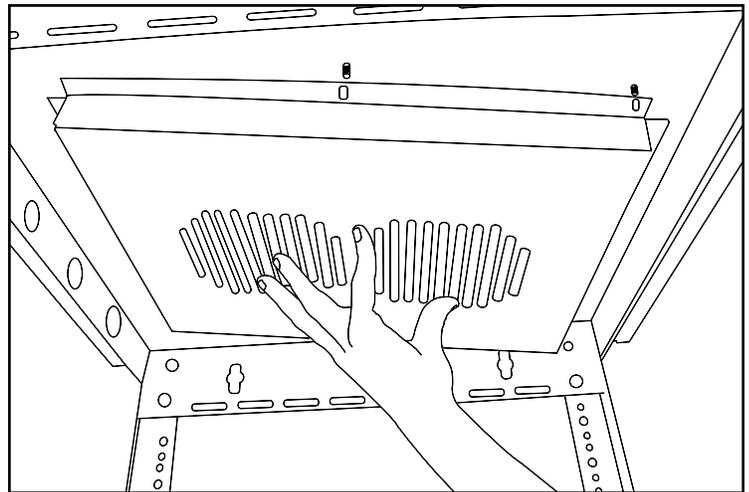

The Strong™ SR-FANBRACKET-2, SR-FANBRACKET-4, and the SR-FAN-2 are top-quality, DC (low voltage) fans with an exclusive levitation bearing system for quiet and long lasting operation without taking up any rack space. Each fan is designed for simple installation with the included hardware for Strong Racks. Control the voltage supplied to the fans to adjust speed and therefore the noise. If more automated is desired, add the TC-ALTv2, or TC-ASC (both sold separately) for thermostat control.

Included Accessories

	4.5" (120mm) DC Fans	Short Y-cables	600mA Power Supply	Rubber Fan Mounts	Nuts	Compatible Rack Series
SR-FANBRACKET-2	2	1	1	8	6	Custom Series
SR-FAN-2	2	1	1	8	8	FS, Contractor
SR-FANBRACKET-4	4	2	1	16	4	Signature, Custom

Installation

- Loosely thread two nuts onto the rear pre-installed mounting bolts. This will hold the cooling unit stable while threading the other nuts.
Note: For the SR-FAN-2, from the top of the rack, thread 4 bolts, nuts and washers per fan, and tighten.
- On the top, inside of the rack, slide the Strong cooling unit onto the pre-installed mounting bolts.
- Thread the included nuts onto the rack's pre-installed mounting bolts.
- Connect the power supply to the short Y-cable, aligning tip to +, plug in the power supply, and secure wiring.
- Once the fans are on, set the voltage to the desired setting with the primary considerations being noise and effectiveness. Typically the power supply will be set between 5 and 9V DC.

Warranty (Bracket)

Strong Lifetime Limited Warranty

All Strong™ products have a Lifetime Limited Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. This warranty shall not apply to products that have been abused, modified, or disassembled. Products to be repaired under this warranty must be returned to SnapAV or a designated service center with prior notification and an assigned return authorization number (RA).

Warranty (Fan)

Cool Components Return Policy

Do not returned damaged or defective products to point of purchase. If the unit arrived non-functional, we will resolve the issue quickly and hassle-free. Contact Cool Components on the web at: www.coolcomponents.com/warranty.

Cool Components Warranty Information

This unit is guaranteed to be free of defects for a period of three years from the date of purchase. This warranty excludes damage caused by misuse or for applications other than the intended use of the products.
