

Planet Waves™ Ultra High Speed HDMI Cables provide full 4K/8K\* UHD signal transmission for the highest signal transfer quality.

These Ultra High Speed cables provide complete support for 4K60Hz UHD (4:4:4) 18 Gbps HDMI 2.0 standards.

\*Built to meet the new 8K120Hz 48 Gbps requirements, these cables will be tested and certified to HDMI 2.1 specifications as soon as the new testing standard has been released.

In addition to ultra high bandwidth, all cables offer HDR (High Dynamic Range) along with WCG (Wide Color Gamut).

All Planet Waves™ Ultra High Speed HDMI Cables offer enhanced Audio Return Channel (eARC) for uncompressed audio and sound quality matched to that of the display.

Planet Waves Ultra High Speed HDMI Cables are the highest grade and quality of HDMI interconnects available. All cables are precision-made under the strictest manufacturing tolerances.

Always the "Perfect Length," cables are available in six lengths from 0.5 meters to 3.0 meters (1.64 feet to 9.84 feet), continuing the Planet Waves tradition of incremental length HDMI for the best-dressed racks and installations.

# HDMI® HDCP

HIGH-DEFINITION MULTIMEDIA INTERFACE

## Product Specifications

Supported Resolution	4K60 UHD (4:4:4) - HDMI 2.0*
Throughput	18.0 Gbps / 48.0 Gbps*
Rating	HDCP 2.2
Audio Transmission	eARC
High Dynamic Range	Yes
Wide Color Gamut (WCG)	Yes
Ethernet	Yes
Video Connectors	Male HDMI A-to-A
Maximum Length	3.0 m / 9.84 ft
*Built to meet 8K120Hz 48 Gbps requirements. Cables will be tested and certified to HDMI 2.1 specifications upon CTS testing standard release.	

## Part Numbers

Length	Part Number
0.5 m / 1.64 ft	PW-UHSH0.5m
0.75 m / 2.46 ft	PW-UHSH0.75m
1.0 m / 3.28 ft	PW-UHSH1.0m
1.5 m / 4.92 ft	PW-UHSH1.5m
2.0 m / 6.56 ft	PW-UHSH2.0m
3.0 m / 9.84 ft	PW-UHSH3.0m
